Evaluator Summative Comments

Submitted by TINA LIVINGSTON on Fri 5/02/2014 - 11:13AM

Evaluator's Final Summative Comments:

Comments:

Mallory led her team of five through significant changes. Growing from a team of two to five; welcoming two new teachers, one new to fifth grade and one back from leave of absence, Mallory had her work cut out for her. She created a Haiku site to share documents created by the team, house meeting agendas, discussion notes and agreed upon decisions. During observed periods it was noted the high use of technology, student created tech reports and posted learning targets. Mallory is the school's tech leader; she teaches classes and coordinates the distribution of computers. Mallory graciously trouble shoots for multiple teachers needing help with tech. Mallory grasped the change to common core and sought to implement the new curriculum while maintaining a challenging learning environment for her students. Mallory writes a weekly newsletter which she shares with her peers. The team therefore sends a common message to parents. During observed periods it was noted students were on task, knew their target and how they would be assessed. Mallory: 1. Currently enrolled in Teacher Leadership Masters program with SPU 2. Lead LEAP traings around technology integration3. Lead and contribute to our weekly PLC team meetings (see our 5th grade PLC page) Mallory meets all the requirements of teaching according to the LWSD agreed upon Framework for Teaching Evaluation system.
